Known as the 'Stripe of Turkey', Iyzico was kick-started in Istanbul where founders worked from coffee shops and their home. Back then, accepting online payments in Turkey was a big pain. Iyzico was founded to fill this gap.

The idea was to build a simple yet effective payment gateway that would allow ecommerce store owners in Turkey to accept online payments in a fast and secured way within 48 hours. And, Iyzico collaborated with Multidots to build a world-class payment gateway.

SERVICES OFFERED

How Multidots helped Iyzico

Our team assisted Iyzico right from building the payment gateway, extensions and their website.

The major technologies used were the Zend Framework and WordPress Open Source CMS.

HOW WE WORKED

Working on the Dedicated Model

Considering the needs of Iyzico, we decided it would be best to deploy a dedicated team of 8 developers working on their project. Following Agile Methodology, our people implemented the project in a timely and cost-effective way.

CORE SERVICES OFFERED

1 PAYMENT SOLUTIONS

Custom payment solutions were built for ecommerce stores and market places.

2 ADMIN & VENDOR PANEL

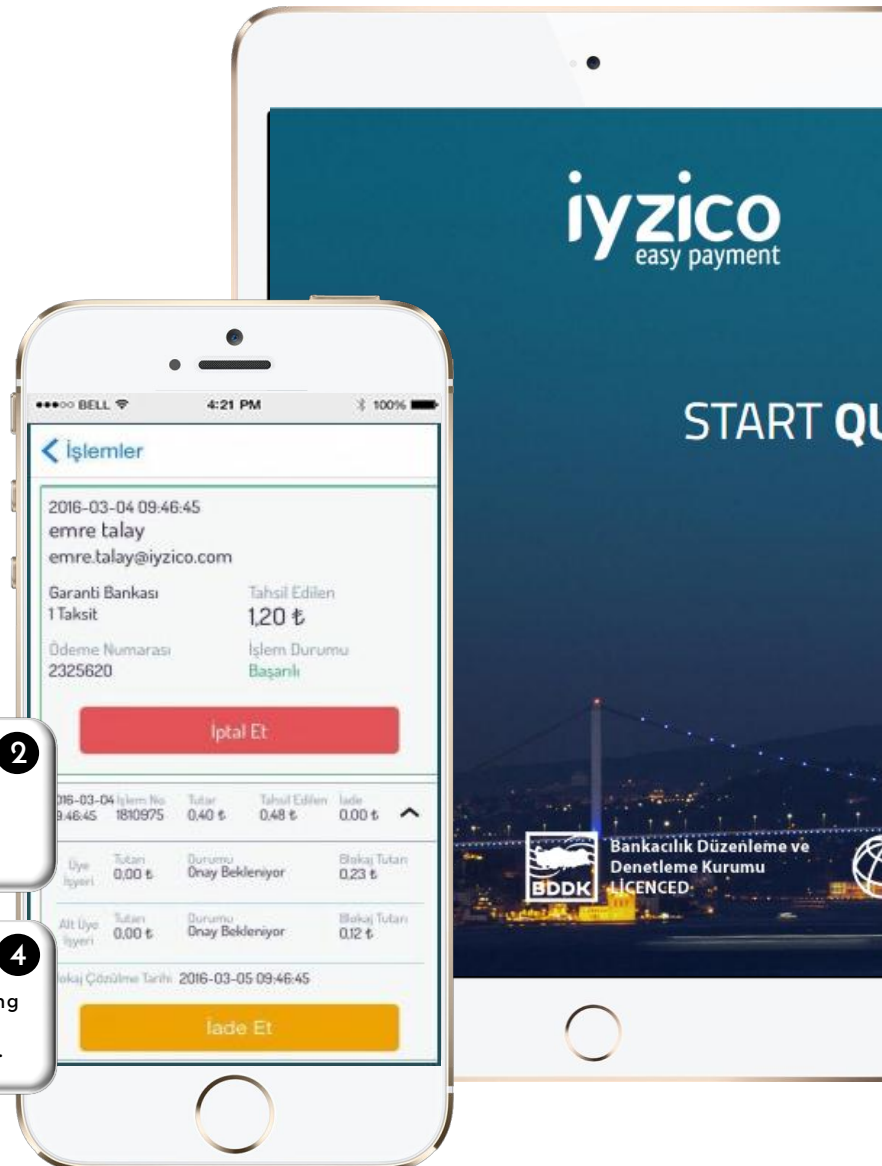

Advanced panels to help Iyzico manage vendors, transactions & lot more.

3 EXTENSIONS

Custom modules were designed, built & optimized for shopping carts.

4 WORDPRESS WEBSITE

Advanced CMS Website using open source technology to help manage content easily.

Gains Iyzico Achieved

● More than just development

Multidots understood that a start-up's needs always evolve as time passes. Our team constantly advised them regarding the business aspects to fulfill their business goals.

● Scalable, secured & robust solutions

A start-up grows exponentially and so the solutions it requires have to be scalable ensuring the performance and customer experience is never hampered. We made sure that the payment gateway functioned with super-fast speeds giving merchants the best experience irrespective of business volume size.

● Quality coupled with Affordability

The various needs of a start-up have to compete with the resources it has. Multidots ensured that Iyzico got the best that suited their pockets. Rigorous QA & Testing ensured the end-result was flawless.

● On-time delivery

Using advanced project management tools, our project managers constantly kept the Iyzico Team in the loop to update our project's progress. Scrum Technique ensured we quickly implemented the feedback and delivered solutions on time.

CHECK OUT FOR YOURSELF

Never miss another deadline for your start-up because your customers won't wait. Try the Multidots Team and say good-bye to project hiccups.
